

Indiana Eye Care

August 2010

Rebecca Wincek Bateson, OD

Since our last newsletter there have been some exciting changes to the office. We welcomed baby Brooklyn and hired two new staff. Samantha Bozzer is a senior education major at UPJ and Mariah Hays is in 10th grade at Penns Manor High School. We greatly appreciate their help during this busy back to school time! Thank you girls!

We hope you are having a wonderful summer and please remember to schedule your child's back to school eye exam. Take care.

Michael J. Yuhas OD

Your child's sight affects their grades

Eighty percent of all learning is performed through vision. Make sure your child has the best possible tools to learn successfully.

Please welcome our newest addition!

Brooklyn Makenzie Visnesky

Born: June 29, 2010

5 lbs 15 oz 18 1/4 inches

Proud parents: Holly and Eric

Signs Your Child May Have A Vision Problem:

- Avoids reading and other near visual work as much as possible.
- Attempts to complete work, but does so with a lower level of comprehension or efficiency.
- Experiences discomfort, headaches or fatigue.
- Demonstrates a shortened attention span.
- Acts out with poor behavior in the classroom.
